

Whole School Learning Week

8th – 12th February

Theme – Bees

Next week, all the children are going to be learning about Bees and there will be lots of activities planned for you that you can do as a family. We have lots of exciting things for you to do!

We would love more of you to join in, so the class with the most participation and contributions to google classroom wins a prize!

This will be communicated to you on Thursday so on Friday as part of your daily exercise you can collect your prize!

Looking forward to seeing all your super work.

It's going to be a great way to finish the half term!

Thank you for your continued support and enthusiasm.

Katy Spreckley – Acting Assistant Headteacher
